

IMPLEMENTATION OF WPT IN A WIRELESS MODULAR SYSTEM

POWER UNIT CIRCUIT

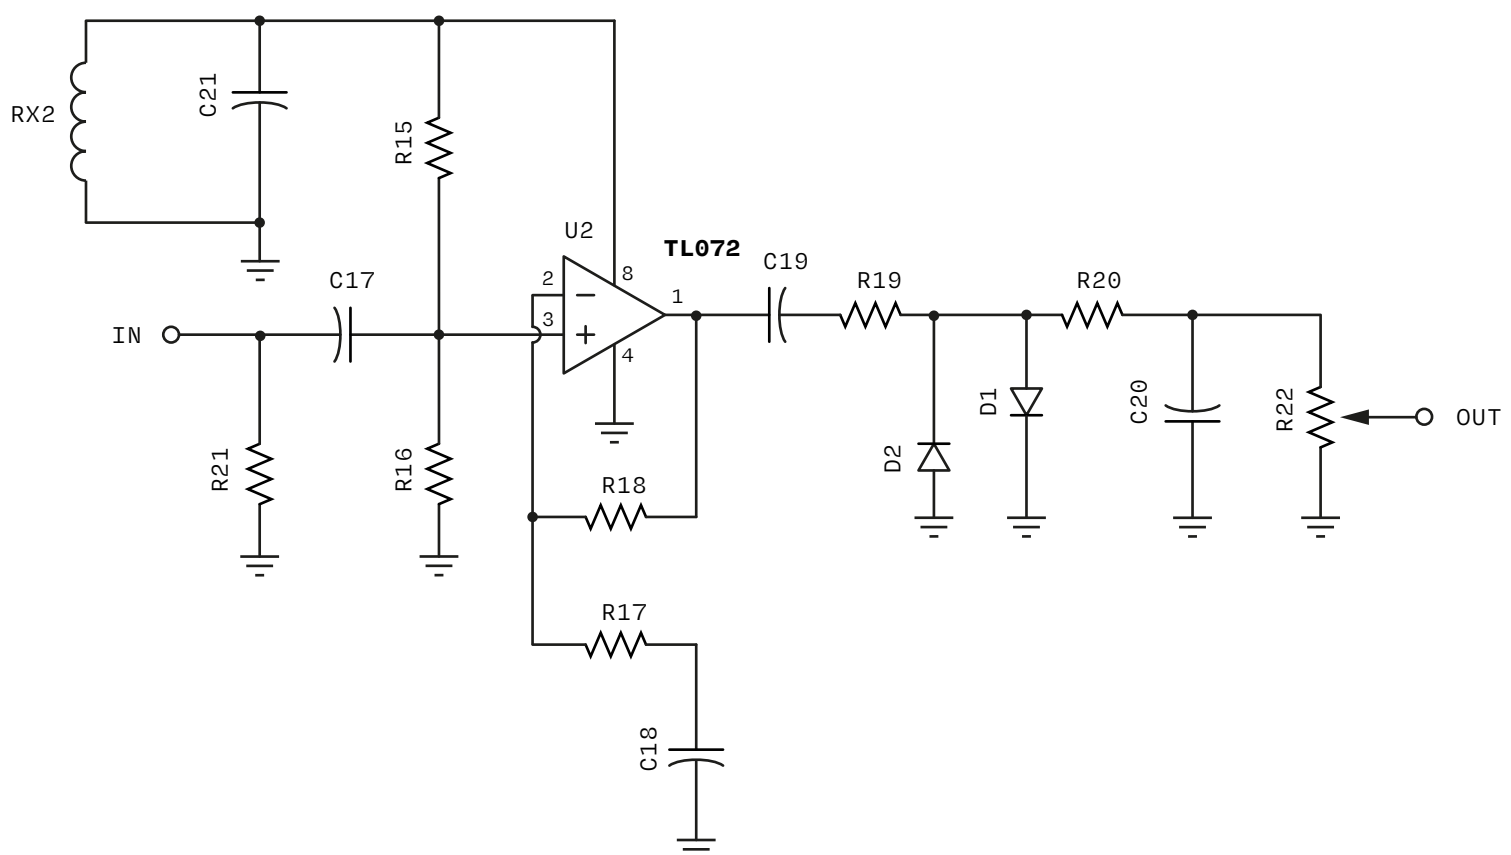

DELAY UNIT CIRCUIT

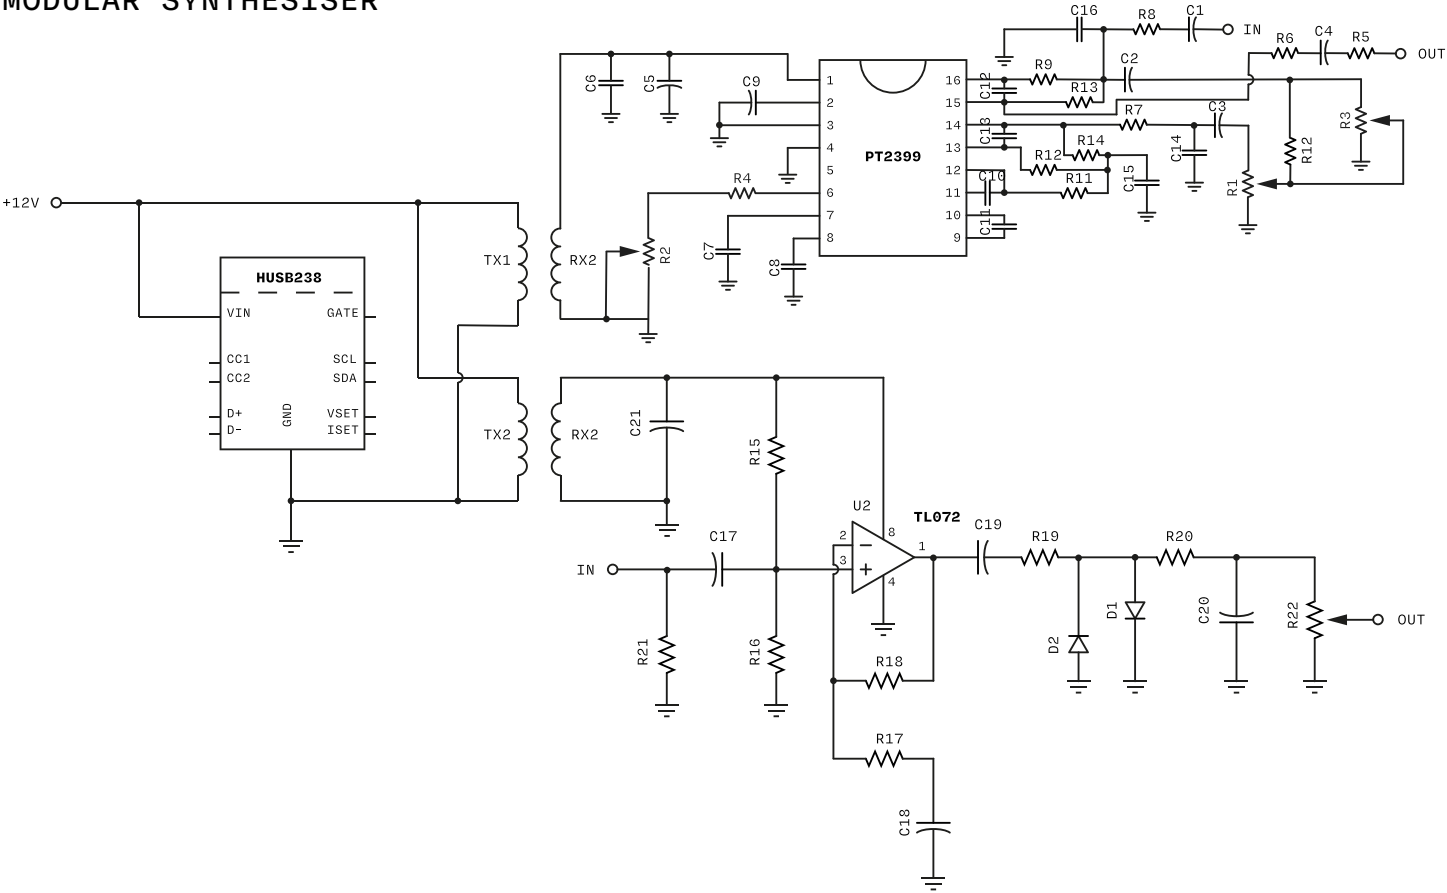

Pink lines represent potentiometers and components added to the PT2399 Echo Application Circuit.

All other components can be replaced with PT2399 board (U1).

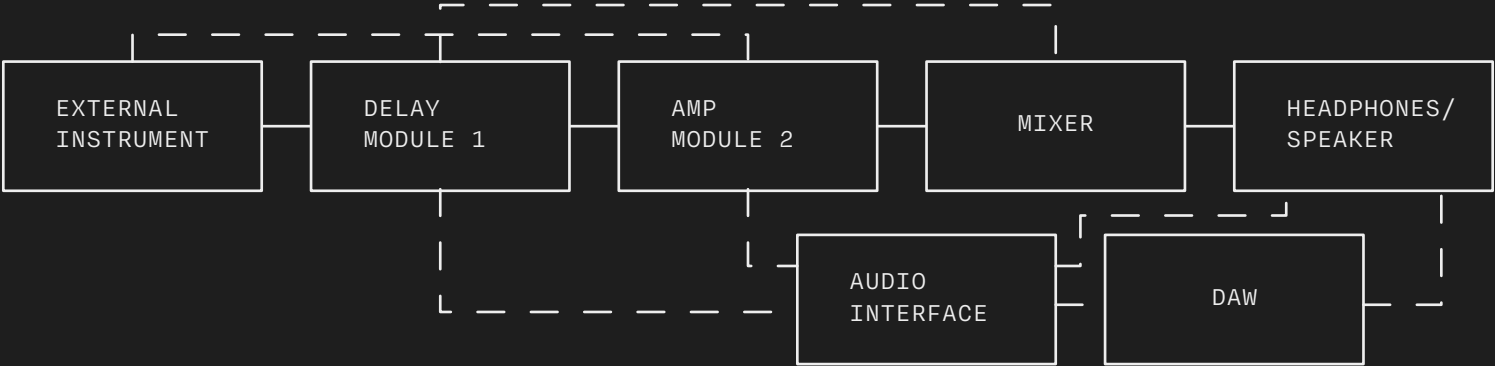

AMP UNIT CIRCUIT

COMPLETE WIRELESS ANALOGUE  
MODULAR SYNTHESISER

TWO-MODULE SETUP: A REPRESENTATION OF SOUND FLOW

The dashed line indicates alternative possibilities and variations in how sound may flow across different configurations.
